

NAFA Non-approved bat list with certification marks

Bats prior to 2000 that have never been banned and were legal and have remained legal and are not titanium are allowed. 2012 NAFA Banned Bat List for bats made after 2004 we use the national governing body's list which is funded by the Government to make this list of Banned Bats. ASA Legal bats are legal, Some ISF & USSSA 1.2 bpf bats are NOT legal. NAFA reserves the right to declare any bat NOT ALLOWED for ANY REASON. We don't have to have it tested, if we feel the bat gives the team using it an unfair advantage we may disallow it without cause at any time.
